Assistant Software Engineer

Address: Shahdrah, Lahore, Pakistan • **Contact:** +92 3027379604
Email: ahmadbutthere06@gmail.com • **Linkedin:** in/ahmad-butt-2303bb26a

I'm a **frontend web developer** skilled in creating responsive, user-friendly interfaces for various web and eCommerce projects. I work with technologies like HTML, CSS, JavaScript, and frameworks like Tailwind and Bootstrap and React-js to build fast and visually appealing websites. I'm passionate about open-source and always explore new trends to improve user experience. I'm looking for a Frontend Developer role where I can grow and make a positive impact.

PROFESSIONAL EXPERIENCE

EG Solutions, Lahore Pakistan • Magento Developer
<https://eg-solutions.net/>

05/2023 -Present

Training for developers, Code Reviews, and Frontend Development of Magento 2 and Laravel sites from scratch based on user requirements, ensuring responsive and visually appealing designs. I focus on maintaining and enhancing the UI/UX of live sites, implementing new features, and debugging frontend issues. Additionally, I have contributed to B2B projects in Magento 2, worked on Progressive Web Apps (PWA) for modern, responsive frontend development, and developed user-friendly interfaces for Laravel-based projects.

Fiver
<https://www.fiverr.com/ahmadbutt06>

03/2023 – Present

As a freelance frontend developer, I specialize in creating responsive and user-friendly websites. I collaborate with clients from France to deliver high-quality web solutions tailored to their needs.

PROJECTS

Bakeplus , <https://shop.mcstaging.bakeplus.com/>

Magento 2

I contributed to the design of BakePlus, an e-commerce platform dedicated to selling bakery products. The website offers a seamless shopping experience, with an emphasis on user-friendly navigation, responsive design, and an intuitive checkout process.

Eguana , <https://eguanافر.co.kr/>

Laravell

I designed this Laravel-based website, which includes an admin side for managing hotel and product ads. It features a desktop view with a preview option to display added items, though editing or selection isn't allowed in the preview. My focus was on creating a clean, responsive design while meeting the functional needs of the preview feature.

Kipling , <https://www.kipling.jp/>

Magento 2

I actively contribute to resolving frontend issues faced by clients on live sites, ensuring a seamless user experience. My responsibilities include implementing efficient and visually appealing solutions, adding new features to the site based on client requirements, conducting peer code reviews, and managing the deployment of frontend updates.

Kbookstore , <https://kbookstore.com/>

Magento 2

Worked on the design of Kbookstore, ensuring a visually appealing and user-friendly interface for an optimal shopping experience. My focus was on creating a responsive layout that aligned with the brand's identity and enhanced accessibility across devices.

Omvi

Magento 2

Design and development of this medicine sale website using the Porto theme. My role involved customizing the theme to create a user-friendly and visually appealing interface tailored to the project's requirements. Although the project is still on staging and not live yet

Wacom , <https://estore.wacom>

Magento 2

As a Frontend Developer and QA for Wacom's eStore, I was responsible for designing and implementing a responsive and visually engaging user interface to deliver a seamless shopping experience across devices.
